To whom it may concern

Dear Sirs

## **Ark Architecture & Design**

I write with reference to the above practice.

The team at Ark has always provided a prompt, professional and courteous service on each of the projects I have worked with them on.

Brian and Tom have always sought to promote the value of good quality urban design as an important element of each project and have managed to balance the development of innovative design solutions with the need to take account of the commercial circumstances influencing the project.

The team at Ark have worked well as an important part of our Multi Disciplinary Design Teams ensuring that the delivery of the project is always given priority.

I have worked with Ark on the creation of Development Masterplan's, that require to respond to the aims and objectives of Local and National policy through to the preparation of detailed planning and building warrant applications for residential development.

I would be happy to recommend Ark to you and am confident that they would provide you with the same level of service that I have experienced.

Should you wish to discuss any of the above further I would be happy for you to contact me on the number below.

Yours faithfully

**Ian Drummond**  
Director
